PROFILE SUMMARY

Software Tester with 2+ years of experience in manual testing, API testing (Postman), and automation, with hands-on expertise in Python/Django. Successfully contributed to high-quality delivery across multiple products, including Agua Spark, CASBIRO, LedgerGate, Sahakari, and Bookify. Skilled in debugging, client communication, workflow analysis, and cross-team collaboration. Recently promoted to Product Manager in the UAE, leveraging strong product knowledge, customer understanding, and technical background to manage SaaS features, gather requirements, and improve user experience. Currently growing in product strategy, SaaS implementation, and AI-driven testing while transitioning into full product ownership responsibilities.

SKILLS

- **Programming:** Python, JavaScript, HTML5, CSS,
- **Frameworks:** Django, Flask,
- **Testing:** Manual Testing, Selenium, Postman, API Testing, SQL Validation, Test Case Design, Test Planning
- **Tools:** Git, GitHub, JIRA, Trello, Bugzilla
- **Design:** UI/UX Design (Figma, Canva), Poster Designing
- **Soft Skills:** Analytical Thinking, Problem Solving, Teamwork, Self-Motivation, Strong Communication

PROFESSIONAL EXPERIENCE

Product Manager Agua Spark, UAE

December 2025 – Present

- Promoted from Software Tester to Product Manager after demonstrating strong product knowledge, customer understanding, and technical expertise.
- Lead product planning, feature prioritization, and requirement gathering for the Agua Spark SaaS platform.
- Collaborate with cross-functional teams including developers, QA, sales, and support to deliver high-quality product updates.
- Conduct client onboarding, product demonstrations, and training sessions to ensure smooth adoption of platform features.
- Translate customer feedback into actionable improvements, enhancing user experience and operational workflows.
- Utilize QA background to validate releases, identify issues early, and support the development of stable, high-performing product modules.

Quality Assurance Tester | Agua India

Jun 2023 – October 2025

- Performed manual & automation testing on 5+ enterprise applications, including:
 - **Agua Spark (Water Delivery Software – App & Dashboard):** Performed manual testing of delivery tracking features, order workflows, and vendor dashboards; validated data accuracy across web and mobile platforms.
 - **CASBIRO School Management:** Performed API testing using Postman and validated data workflows; tested attendance modules and other core features. Additionally, developed and integrated the notification module, ensuring reliable communication within the system. Conducted regression testing after updates to maintain stability and reduce defect leakage.
 - **LedgerGate CMA Academy:** Performed functional testing of exam modules (question display, timer, scoring, and report generation) across mobile, tablet, and desktop. Verified UI/UX consistency and ensured cross-browser responsiveness for a seamless learner experience.
 - **Sahakari Race Plus:** Performed functional testing of key modules including mock tests, question banks, and result reports for a Kerala PSC exam preparation platform. Validated data accuracy and usability, helping deliver a reliable learning app for 500+ government exam aspirants.
 - **Bookify:** Tested end-to-end booking workflows, with focus on payment gateway validation and resolving same-slot booking conflicts. Ensured smooth user experience by identifying and reporting critical defects in the reservation process.
- Designed and executed 100+ test cases, created detailed test plans, and tracked defects using JIRA, Trello, and Bugzilla.
- Conducted API testing using Postman and validated backend workflows through SQL queries.
- Collaborated with developers and clients to debug efficiently, leveraging Python/Django knowledge for technical discussions.
- Contributed to AI-based automation initiatives, streamlining testing workflows.

Python Developer Intern Soften Technologies

March 2023 – May 2023

- Completed a foundational internship that marked the beginning of my career in technology, providing exposure to software development and testing concepts.
- Developed and maintained web applications using Django and Flask, focusing on building features and enhancing user experience.
- Gained valuable experience in debugging, code optimization, and collaborating with development teams.

PROJECTS

Leave Management System

Technologies: Python, Django, HTML, CSS

- Designed and developed a web-based Leave Management System for tracking and managing employee leaves.
- Built features for leave application, approval workflow, and leave history reports.
- Implemented role-based access for admin and employees.
- Focused on clean UI and responsive design using HTML and CSS.
- Ensured backend validation and data consistency through Django models and views.

Dress Shop Website

Technologies: Python, Django, HTML, CSS, SQLite

- Performed end-to-end testing of a web-based e-commerce application for a dress shop.
- Validated core modules including product listing, shopping cart, order placement, and user authentication.
- Conducted payment flow testing with dummy gateways and verified error handling in failed transactions.
- Performed cross-browser and responsive testing to ensure compatibility across devices.
- Reported and fixed UI/UX issues, improving overall usability for customers.

EDUCATION

Master of Computer Application (MCA) SRM University, Chennai	2024 - Ongoing
Bachelor of Computer Application (BCA) University of Calicut, Kerala	2020 - 2023
Higher Secondary, Computer Science SKHSS, Guruvayoor	2018 - 2020

ACTIVITIES

- **College Union Chairman (2023):** Elected Chairman of *Eunoia*, the official student union of Paramekkavu College, through campus-wide democratic elections. Served as primary liaison between the student body and college administration. Spearheaded initiatives, including organizing 7 key programs to enhance student engagement and campus life.
- **10th NCC Cadet (2018):** Participated in National Cadet Corps (NCC) activities, demonstrating discipline, teamwork, and leadership qualities through various camps, drills, and community service initiatives.
